

Primary Schools	Secondary Schools	Residents	Sports Club	Annoynmous	Public Session 1	Public Session 2
Toilets, benches ,bins, new swings, car aprk, coffee shop, dog park	I think an astro pitch, where the old pitch used to be would be handy.A few golf section nets where people could hit balls at.	Parking: double yellow lines, cert for residents and their visitors	"flexible pitches- not permanent poles? So that it can be used for all types of sports. Could people mark out the grass themselves. Can't have permanent fixed posts for safety"	Dublin Bay from Rockabill to Dalkey Island is protected as a Natura 2000 site. Killinney to Bray should be a continuation of this.	The castle meadow could be an ideal place to improve biodiversity and showcase biodiversity.	There needs to be better joined up thinking with beach access and quinsns road
Another astro, tennis court, new playground, swings, a real coffee shop	Shelter benches Water Fountain More street Lights	Put a pitch where the new school is going.	Show the length of time it will take to go from each dart station to the pitch	Recommend covered in bike parking	It would be better to upgrade the pitches that are currently in place so there are no drainage problems as well as the pitches at Stonebridge road & Shanganagh cliffs. There is plenty of emphasis on GAA & football, so it would be nice to have some open, free space for people that do not play these sports. Also if the front pitches were upgraded, lights could be put up so they could be used in the evenings & this would save putting lights in the St. Anne's field which will be bad for the residents & also will affect the biodiversity in this area. The front pitches already have the lights from the road so would not be as disruptive.	Add water fountains to the park, especially at the dog park
I think a running track would be good	Shelter, more benches, water fountain, toilets	Adding more parks and fields across the road , correct the park with walking/cycle route footpath/ loop around Clontra	Is there the possibility of sharing time in carparks as at peaktimes it's quite busy. peak times are Saturday and Sunday	In this day and age the county council should not be creating more car parking spaces in a recreation facility, the 60 bicycle parking spaces are good but this could go further with upgraeedd cycle routes away from the R119 encouraging people to use more active forms of transport	There is absolutely no reason why the front two pitches cannot be developed to the same standard as the back pitches. The existing baseball diamond and cricket crease could be maintained in the bottom right hand corner of the back field allowing more meadow space in those fields. Access to carparks would be closer to the front pitches and access to the main road and public transport. There is no need to develop the back fields for more playing pitches, effectively netting out at just one extra pitch!	Could sport not be catered for on a brownfield site?
Football astro	All weather pitches Golf Practice nets	Quinsns road issue with tennis club, 7 years promised parking. Why is the empty carpark not being used?	Restricted w/grass pitches Thye're more expensive and require a lot of management in order to keep them well maintained	Park area set up for weekend markets	Give local access to local kids and 90% of your traffic issues go away!!	School pitches are not used during summer months, can they be used instead?
More playgrounds Floor obstacle course Shankill gaa club pitches Floor trampolines Don't let Cuala use our pitches Hang out zones under roofing	Bins clean area shelter seating toilets first aid kits water fountains lights	Have temporary floodlights been looked at?	Could we connect from DART to park and light?		Community has made reasonable proposal that floodlights go beside existing light pollution and upgrade existing pitches	Show clearly where cycle parking will be and increase in numbers.
GAA pitches for the local club Shankill	Sitting area Basketball Shelter Lights	Could you store water from winter flooding to use in summer?	Biodiverse pitches - can't find balls in the edging meadows -Thistles on pitch -		I note the boules/petanque pistes are to be located near the castle . It is important that these are positioned safely so that they do not free any pathways and would avoid harming any passerby	Can parking areas be green car parking to enhance water infiltration (Less asphalt useage)
Obstacle course Better GAA pitches Rugby pitches	Sitting area Sheltered area Toilets	Widen paths?			Upgrade the dog park area at the back to make it more dog friendly	Unclear where new parking will occur. Is increase to 248 spaces necessary? What will demand be at the max useage of park.
Football pitches for football. i play football for Shanganagh	Places with covers so if it rains we can hide under them for shelter Public toilets				Why is Cuala GAA not not putting floodlights on their pitches in Dalkey?	Why not increase the size of the park and keep pitches where they are?
Ziplines would be pretty cool bins for litter Hockey Pitch if there is space A Water fountain	More Bathrooms water fountain Picnic benches Sheltered seating More bins if not already - Cycle lane Wheelchair accessibility in playgroundf More seating in and around the fields				Why not use crematorium site for third GAA pitch?	Why not build more pitches at Woodbrook college/Stonebridge
Yes to bigger playground more exercise places zipline	Public toilets Picnic benches/seating Covered seating Sheltered Bins Wheelchair accessibility in park				Why not put lights beside existing light pollution?	Current construction of Shanganagh Castle - make sure that this is properly managed and policed so that it doesn't inconvenience locals. There is no signage to say it's a building site, no cleaning of muck on the roads, recycling park access is blocked by the construction. This needs to be taken back to council town hall and any future developments need to have proper supervision and maintenance. Safety must be a priority
Zipline Monkey bars Exercise park	Public toilets Wheelchair accessible park Covered Seating Replacing broken items in teh playground Picnic benches Lighting Bins				Put in more dog poo bins & waste bins	If Clontra land can't be bought, could it be temporarily leased?
Green Spaces Meadows Forest Things I don't want: Pitches, floodlight	Covered Seating area Basketball court All weather pitch More bins More benches Public toilets				Put in water drinking fountains /taps similar to the ones on Bray seaftront	Want to see the pitches developed ina way that is supported by the the Irish Sports Council

Primary Schools	Secondary Schools	Residents	Sports Club	Anonymous	Public Session 1	Public Session 2
There should be enough space for everyone's interests. There should be space for walks, chilling and doing nothing, sports, houses, children playgrounds and play space. It should not interfere with the wild animals and their freedom. Maybe a nice coffee shop, walking space, Big sports area with basketball and football nets	Covered seating area Basketball court Public toilets				wheelchair 8 ft + 5 ft rest. old oak trees by the ramp	Dog park should be subdivided for larger + smaller dogs - also include water facility
Tree house with ladder and zipline over pond. Hockey Pitch (if there's space and doesn't effect wildlife, no flood lights) Fountain, accessible to animals	Toilets More Playground Bins Shelters				will need a new school in the area, will also want a nice park/meadow	lighting throughout bins at east park
Picture drawn: Basketball court Activities zone: Arcade, treadmill, bean bag chairs, football Zipline, crash pad, obstacle course	Toilets Bins More playgrounds/ for younger kids Courts for other sports more benches/seats Shelter				Majority of opposition will disappear if front pitches are upgraded. Acquire more park. No crematorium.	Map could have been clearer for people e.g water in blue
Sports clubs for example shankill rugby club and a good coffee shop	Football Toilets Training Facilities Picnic Tables Gymnastics					
Toilets Bins New Swings Benches Car-Park Dog Park Coffee Shop	Basketball courts					Can seating be more innovative in design e.g seating facing each other to cater for different users/ages (rather than single benches). Point 17 on map - path to be removed, is this a desire line? Will pedestrians still use it?
Is there going to be a speed clock on sprint track	I would like a basketball court to be added 8/8 boys would feel safe walking through the park at night and 2/9 girls would					
	More seats around the aprk Running track a flower area Clean toilet facilities More things in the playground for teenagers More lights in the park at night Drinking fountain					
	A shelter place for when it's raining so you can go under it. Bigger park with different stuff in it Add more lights around toilets Poo bag dispensers for dog walkers Trampoline ground in some spots Cafe Water fountain for drinking					
	Add toilets More lights around the park Poo bags on the pole Cafe Drinking Fountain					
	A cafe Seating area Soft ground for gymnastic and twirling batons Drinking fountain More lights					
	Water fountain
