Reactions & Ideas

3 Do you have suggestions for how the allocation of facilities could be fairly managed?
What would be your preferred method of allocating pitches and other facilities?

Involvement

1. Are you aware of what members feel about the current and planned pitches/active zone?

2. Can you help to get the message out to members and community about the public sessions and Part 8 consultation in February? What's the most important thing to tell people?

3. Would you be willing to speak at the public sessions this month?

4. Would you get involved in a long-term community forum to manage the park development?

What would be the best way in your opinion to manage that forum? (e.g. What time of day, how frequent, what format (online, in person) etc.?)
