

Cruagh Greenway Extension

Information Leaflet

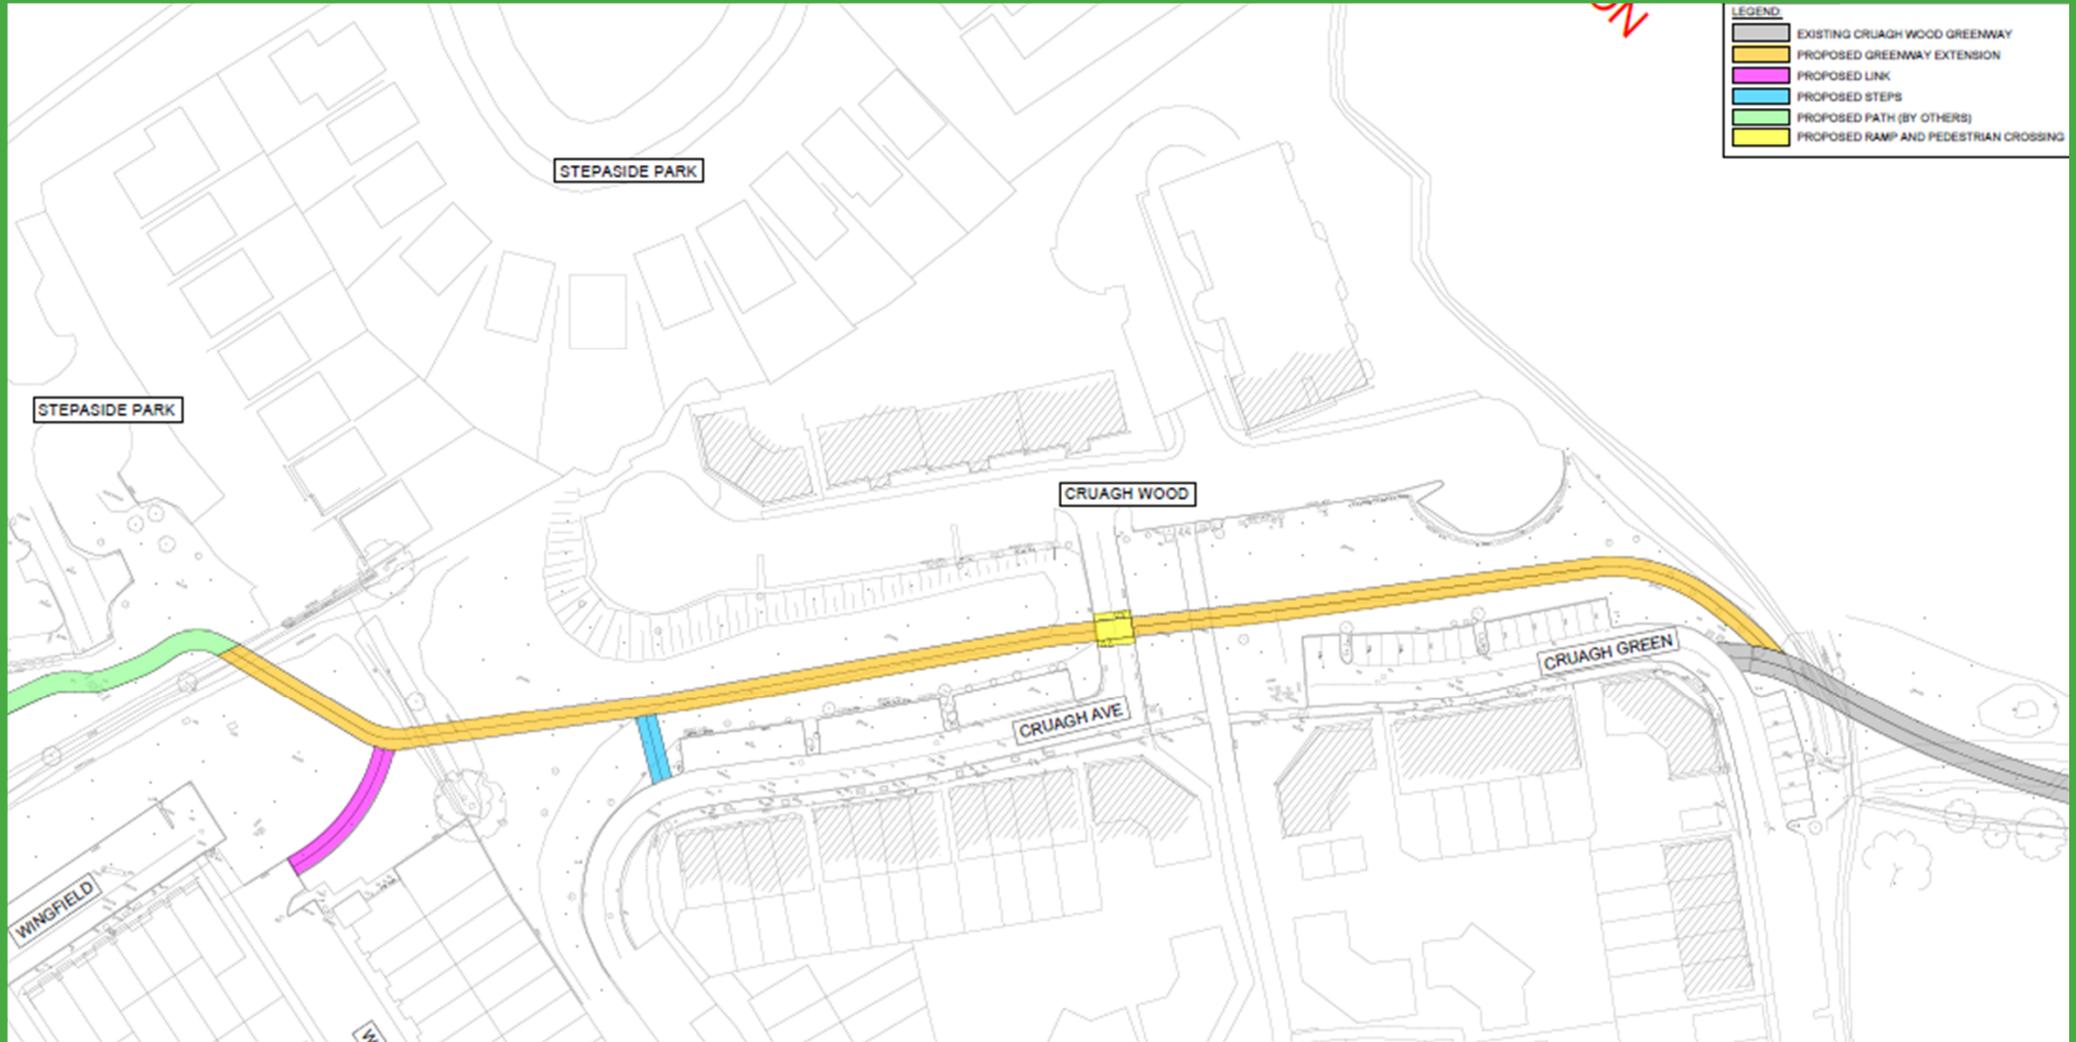

**Works are due to commence in
November 2020**

Scheme Features

- The Cruagh Greenway extension is a 250m greenway that will extend from the new greenway at Cruagh Green up to the Wingfield Estate and into Stepside Park.
- The greenway will be 3m in width and will provide pedestrians and cyclists with a safe and quiet commuter and leisure route.
- Public lighting will be provided along the greenway.
- The Stepside Park developer is to construct a greenway from Enniskerry Road to meet this extension, thus completing a greenway from Ballyogan to Enniskerry.
- Local links to provide connectivity to the greenway from adjoining streets will be provided.
- The greenway route will be designed to minimise the disruption to the existing green spaces in Cruagh and Wingfield estates.
