<p>Does the practice use Tooth box/ boxes for Storage of Extracted teeth</p>			
<p>Declaration: I hereby certify that all the information provided is correct:</p> <p><b>Dentist/ Person completing form Signature:</b> _____ <b>Date:</b> _____</p> <p><b>Print Name</b> _____</p>			

Enforcement of Article 10(4) and 10(6) of REGULATION (EU) 2017/852 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 17 May 2017 on mercury, and repealing Regulation (EC) No 1102/2008 requires that: Each local authority shall monitor compliance by operators of dental facilities situated within its functional area with the following:

- 1) From 1 January 2019, operators of dental facilities in which dental amalgam is used or dental amalgam fillings or teeth containing such fillings are removed, shall ensure that their facilities are equipped with amalgam separators for the retention and collection of amalgam particles, including those contained in used water.  
Such operators shall ensure that:
  - a) Amalgam separators put into service from 1 January 2018 provide a retention level of at least 95 % of amalgam particles; and
  - b) From 1 January 2021, all amalgam separators in use provide the retention level specified in point (a).

*Amalgam separators shall be maintained in accordance with the manufacturer's instructions to ensure the highest practicable level of retention.*

- 2) *Dental practitioners shall ensure that their amalgam waste, including amalgam residues, particles and fillings, and teeth, or parts thereof, contaminated by dental amalgam, is handled and collected by an authorised waste management establishment or undertaking. Dental practitioners shall not release directly or indirectly such amalgam waste into the environment under any circumstances.*
