Assessment Criteria Explained

The following assessment criteria will be used to rank eligible proposals. Decisions on funding will be based on this ranking.

1. Partnership arrangements

Does your proposed project involve working closely and in partnership with local authorities, local business, NGOs, and other local interests? How will you ensure a high level of interest and involvement with the project? Projects with strong partnership arrangements and local involvement will be given a higher rating.

2. Awareness raising potential

Will your project raise environmental awareness in your local community? Is it educational, with a focus on national environmental concerns? Proposals are more likely to be given a higher rating where environmental awareness is brought to a wider audience.

3. Practical promotion of Local Agenda 21

Will your project promote good environmental practice and sustainable living? Projects will be given a higher rating where they provide practical solutions to environmental issues and involve local communities in developing a more sustainable society.

4. Value for money

How will the funding be spent and what outcomes will be achieved? Projects providing excellent value for money and efficient use of resources will be given a higher rating.

5. Widely replicable

Does the project deal with issues common to other communities and will it involve solutions that can be applied elsewhere? Projects which demonstrate that they are replicable elsewhere will be given a higher rating.

6. Feasibility of project targets

Are the project targets feasible and how will the project be managed to achieve those targets? Have similar projects been undertaken in the past and have they been successful? Proposals demonstrating good management to achieve feasible objectives will be given a higher rating.

7. Structure and layout of proposal

Proposals should be well structured, clearly defining project aims and objectives. Proposals should also demonstrate how the local community will be involved. Project budgets should be well set out and arrangements for managing the project should be detailed. Clear, well-structured proposals will be given a higher rating.

General Conditions

- A. Tax Clearance: Applicants should be advised that approval of funding will be conditional on tax clearance requirements being met. Applicants are required to list the number and name of all grant applications they have submitted to each local authority.
- B. Progress on projects should be monitored and all successful applicants will be required to furnish and return a completion report to their local authority.
- C. In order to ensure that the fund prioritises locally identified environmental needs, it should be noted that no single project may apply to more than eight local authorities.
- D. Expenditure on the carrying out of works (e.g. environmental improvements) is not specifically excluded but the main focus should be in accordance with the overall spirit of Local Agenda 21.
- E. Projects eligible for funding under the Department of the Environment, Community and Local Government's anti-litter grants scheme will not be considered under this scheme.
- F. Applicants must ensure that relevant projects are carried out in accordance with all Child Protection Policies and Procedures currently in place in each Local Authority. Prior to participation, it is important to consult with your Local Authority in this regard.
- G. Applicants may be subject to Garda vetting procedures.
- H. Commercial/business projects are not eligible for funding.
- I. **Completed application forms should be returned to the relevant local authority by 5pm, 23 June 2017 at the latest.**
