SURFACE WATER CONNECTION APPLICATION CONDITIONS

All applicants are advised that a connection will be provided only on condition that the development is in compliance with the requirements of the Sanitary Authority (Local Government (Planning and Control) Act 1990). In particular, applicants should note the following:

- 1. Dún Laoghaire-Rathdown County Council will carry out all connection work to public sewers at the applicant's expense (unless otherwise agreed by the Drainage Section).**
2. Connections to the public sewer **will not be granted under any circumstances** until the internal drainage layout has been completed in accordance with the appropriate Planning Permission conditions.
3. A site location map, a drawing showing the location of the public sewer and the proposed connection and a drawing detailing the 'as constructed' drainage layout must be submitted, in A3 or A4 format.

(NOTE IF ANY OF THESE DRAWINGS ARE NOT PROVIDED THE APPLICATION WILL NOT BE PROCESSED).

- 4. If any Public Area is being opened (i.e. road, footpath or grass margin) a Road Opening Licence must be obtained from the County Council's Transportation Department, Tel 01 2054879.**
5. It is a matter for the applicant to ensure that they have adequate fall from their site to the public sewer. In general, the outgoing invert level of the connection pipe should allow for a fall of at least 1:100 to the crown level of the receiving public sewer. Details regarding positions and levels of public sewers can be obtained from the **Technical Services Section**, at the above address.

OPENING HOURS

9.30 a.m. – 1.00 p.m.

2.15 p.m. – 4.30 p.m. (2.15 p.m. – 4.00 p.m. Friday)

6. Applicants must investigate the location of adjacent services and ensure that there is an unobstructed route from the site to the public sewer to allow the connection work to proceed.

NOTE: The applicant should note that this connection process takes a minimum of 5 weeks
