Urban Regeneration and Development Fund (URDF) Round 3

Distinct from previous URDF funding calls, the third round of funding support is specifically designed to address long term vacancy and dereliction across our URDF cities and towns and the acceleration of the provision of residential accommodation. This approach ensures the projects supported by the URDF align with the current objectives of other government policies such as Housing for All and Town Centre First. These objectives reflect the identified necessity to bring existing long term vacant and derelict buildings and sites into use for residential and other purposes. Providing this strategic support within URDF towns and cities will complement current and future URDF projects that involve a mix of public realm improvements, sustainable transport infrastructure, recreation and sporting amenities and site infrastructure works.

We are pursuing the acquisition of 2 properties with the assistance of this funding as follows :-

- No. 109 Lower Georges Street, Dun Laoghaire – Purchase price and terms and conditions agreed with Valuers. Progressing to Contract stage.
