

4.10 Affordability Index for 2013

% of Households in each Category	New Households per annum 2008	Affordable House Price Decile	Estimated House Price Bands	% of Units in each Decile price Range	Number of Units in each Decile – as a % of 2856 units
7.6	217	62,741	235,980 - 314,640	20	571
8.8	251	97,277	393,300	23	657
9.9	283	142,844	471,960	16	457
9.9	283	194,378	550,620	14	400
10.3	294	249,338	629,280	6	171
10.6	303	310,779	707,940	4	114
11.0	314	378,050	786,600	4	114
10.6	303	462,648	865,260	1	29
10.7	306	564,925	1,179,900	5	143
10.3	294	888,448	1,573,200	4	114
TOTAL	2,856			100%	2,856

Table 26. Affordability Index 2013

Note:

It is projected that house prices will remain static from the previous year, but incomes will see a moderate increase. The affordability situation should therefore improve somewhat.

The house price survey (conducted October 2008) indicated that a negligible number of units are available in the County for less than €300,000. The least expensive house price band is 300,000 to 400,000. The lower 4 deciles of household income are unable to afford to service a mortgage (at 35% of disposable income) to purchase a property in this range (plus a proportion of the 5th decile). – This equates to **43%** of all new households - a total of 1,278 households.

4.11 Affordability Index for 2014

% of Households in each Category	New Households per annum 2008	Affordable House Price Decile	Estimated House Price Bands	% of Units in each Decile price Range	Number of Units in each Decile – as a % of 2856 units
7.6	217	65,188	243,059 - 324,079	20	571
8.8	251	101,065	405,099	23	657
9.9	283	148,410	486,119	16	457
9.9	283	201,958	567,139	14	400
10.3	294	259,063	648,158	6	171
10.6	303	322,900	729,178	4	114
11.0	314	392,794	810,198	4	114
10.6	303	480,691	891,218	1	29
10.7	306	586,957	1,215,297	5	143
10.3	294	923,097	1,620,396	4	114
TOTAL	2,856			100%	2,856

Table 27. Affordability Index 2014

Note:

It is projected that house prices will increase by 3% from the previous year and incomes will see a similar increase.

The house price survey (conducted October 2008) indicated that a negligible number of units are available in the County for less than €300,000. The least expensive house price band is 300,000 to 400,000. The lower 4 deciles of household income are unable to afford to service a mortgage (at 35% of disposable income) to purchase a property in this range (plus a proportion of the 5th decile). – This equates to **43%** of all new households - a total of 1,267 households.

The reason that the percentage of new households unable to afford housing remains the same as the previous year, even though house prices are increasing slightly, is because average annual disposable incomes are rising to a similar extent.

4.12 Affordability Index for 2015

% of Households in each Category	New Households per annum 2008	Affordable House Price Decile	Estimated House Price Bands	% of Units in each Decile price Range	Number of Units in each Decile – as a % of 2856 units
7.6	217	67,730	252,782 - 337,042	20	571
8.8	251	105,003	421,303	23	657
9.9	283	154,198	505,564	16	457
9.9	283	209,835	589,824	14	400
10.3	294	269,166	674,085	6	171
10.6	303	335,493	758,345	4	114

10.6	303	522,912	973,210	1	29
10.7	306	638,512	1,327,104	5	143
10.3	294	1,004,176	1,769,472	4	114
TOTAL	2,856			100%	2,856

Table 29. Affordability Index 2016

Note:

It is projected that house prices will increase by 5% from the previous year and incomes will see a similar increase.

The house price survey (conducted October 2008) indicated that a negligible number of units are available in the County for less than €300,000. The least expensive house price band is 300,000 to 400,000. The lower 4 deciles of household income are unable to afford to service a mortgage (at 35% of disposable income) to purchase a property in this range (plus a proportion of the 5th decile). – This equates to **43%** of all new households - a total of 1,272 households.

4.14 Conclusion

The conclusion from the analysis carried out is that the Planning Authority is justified in framing a policy to reserve 20% of land zoned for residential use, or for a mixture of residential and other uses, for the provision of social and affordable housing need, for the purposes of Section 94(4)(a) of the Acts.

	2008	2009	2010	2011	2012	2013	2014	2015	2016	TOTAL

Table 30. Proportion of new household formations meeting affordability criteria

As can be seen from the table above, the affordability situation for prospective house purchasers improves over the period of the Plan. Despite this, the average percentage of households experiencing an affordability problem is 50%, and never drops below 40% for the duration of the Plan period.

Table 31 shows the impact of the Council's proposed Social and Affordable construction programme (and other schemes of provision) on the proportion of households experiencing affordability difficulties. As can be seen, the percentage of households unable to afford according to the DOEHLG's criteria remains significant – above 38%

Table 31. Affordability Analysis - Proportion of new household formations meeting affordability criteria, taking into account the Councils social and affordable construction plans

5 Social and Affordable Housing

5.1 Introduction

The analysis of housing affordability anticipates that more than 20% of new households formed in the period of the strategy (on an annual basis) will continue to experience difficulties in respect of affordability. It has also been noted in Section 4 of the report that there is adequate zoned residential land within the County to meet anticipated demand for housing.

The requirement for social and affordable housing stems from two main sources: existing households who cannot afford to meet their housing needs and new households, formed over the lifetime of the Strategy, who will be unable to afford either owner occupied or market rented accommodation. In that sense, it can be said that the elements of housing demand are made up of *accumulated* need and *prospective* need. Accumulated need is made up from the Local Authority social and affordable housing register and those with special needs. The prospective need is a percentage of households from the total number of new households requiring affordable or social housing based on projected income profiles.

The supply to meet the demand is met by the local authority multi-annual programme over the plan period, voluntary housing organisations projected completions, the local authority's affordable housing scheme and Part V and supply from the private sector to meet open market demand.

This section of the report examines the trends in terms of the existing demand for Social and Affordable Housing (as evidenced by the Council's waiting lists) and demand as projected over the period of the Strategy.

5.2 Social and Affordable Housing Demand

5.2.1 Social Housing Demand

The statutory triennial Assessment of Housing Need was carried out in 2008. The gross social housing need in Dún Laoghaire-Rathdown at 31st March 2008 was **3,562**. This figures corresponds to the numbers on the Council's Housing List.

When applications which are more appropriate to other local authorities are excluded (to avoid duplication on a regional basis) the net housing need at 31st March 2008 was **2,928**. This figure has traditionally been the figure used by the Department of the Environment, Heritage and Local Government for policy and planning at a national level. It is considered to be more reasonable to adopt the net figure rather than the gross as the actual demand at that date.

In 2008 up to 12th November a total of 548 housing applications were made to the Council. This equates to 619 applications for a full year figure. Over the three years 2006, 2007 and 2008 the average number of housing applications was 612.

The 2004 – 2010 Housing Strategy employed a figure of 416 p.a. or the annual number of applications then being received, as the projected growth in housing

demand over the period of the strategy. More recent research carried out by the Housing Dept. in relation to the growth in the housing list over the period 2002 – 2007 suggested that approximately one third of housing applicants abandon their applications within three years. Therefore, the projected annual growth in social housing demand could be reasonably taken as 66.67% of the average number of housing applications currently being received i.e. **408** p.a.

Summary of Social Housing Demand	
Social Housing Demand at 31 st March 2008	2,928
Growth in demand 1 st April – 31 st December 2008 (408 X 75%)	306
Projected growth 1 st Jan 2009 – 31 st December 2016 (408 X 7.25)	2,958
Total social housing demand 2008 - 2016	6,192

Table 32. Social Housing Demand. Source: DLR Housing Department

Social Housing Provision over the same period (based on figures contained in the output projections in Table 36, excluding Part V) will be 2,288 units leaving a shortfall of **3,904** social housing units or 433 units per year up to 2016.

5.2.2 Affordable Housing Demand

Following invitation by public advertisement for applications from persons seeking affordable housing in the Dún Laoghaire-Rathdown County area, a total of **3,463** applicants, whose applications were received prior to 10th April 2007, were included on the Council's new Affordable Housing List. The number of subsequent applications received to end of October 2008 was **1,582** bringing the total number of applications received by that date to **5,045**.

The average number of applications per quarter received since April 2007 has been **290**, however in the last quarter this figure had dropped to **116** new applications. During the period from April 2007 a total of **202** applicants had acquired affordable homes through the Council, and **370** applicants had been removed from the list for a number of reasons, but mainly because they had purchased independently, purchased affordable housing through another local authority, or indicated that they were no longer interested in progressing their applications. At 12th November 2008 therefore the number of applicants on the list had increased to **4,473**.

The continued increase in the number of applications being received is considered to be partly due to the fact that even with the recent downturn in house prices nationally, house prices in this County are still beyond the means of a considerable number of first-time buyers. Another contributing factor to the volume of new applications has been the introduction of a common application form for use by the four Dublin Authorities, as a result of which applicants are only liable for one application fee for an application made to one, or more of the four Authorities in the previous 12 months. As a result there has been an increase of applications from persons living outside the Dún Laoghaire-Rathdown County area, with c.35% of the total number of applications received to date made through one of the other three Dublin Authorities, which indicates that these applicants had also applied to that local authority for inclusion on its list. Therefore, the current figure for persons seeking affordable housing in Dún Laoghaire-Rathdown County as their first choice is estimated to be 65% of 4,473, i.e. **2,907** in November 2008.

AFFORDABLE HOUSING SUPPLY TO END OF 2009

Dwellings currently available for purchase by approved applicants	223
Additional dwellings due to be made available by end 2008	92
Estimated additional no. of affordable dwellings to be made available through Part V and the 1999 Scheme during 2009	245

Table 33. Affordable Housing Supply. Source: DLR Housing Department

The estimated total number of affordable units to be made available from now until end of 2009 is therefore **560**

SUPPLY V. DEMAND AT END OF 2009	
Affordable Housing demand at November 2008	2,907
Projected growth in demand to end 2009 (116 x 4 x 65%)	300
Affordable Housing demand to end of 2009	3,207
Affordable Housing output to end 2009	560
Shortfall of Affordable Housing at end of 2009	2,647

Table 34. Affordable Housing Supply Versus Demand. Source: DLR Housing Department

5.2.2.1 Projected Affordable Housing Demand From 2010 to 2016

If house prices continue to decline until 2012 and then begin to increase again from 2014 as projected in paragraph 4.2.2., then it can be assumed that a similar pattern of decline and increase will be reflected during that period in the number of applications being received for affordable housing.

Assuming that the number of applications falls to **400** per annum for period 2010 to 2013 and then increases again to **600** per annum for period 2014 to 2016, this would give a total of new applications received during the seven-year period of **3,400**. Taking a similar percentage reduction to that made above to take into account those applicants who have applied to another local authority as their first preference, i.e. 35%, then the total net increase for the period is projected at **2,210**. This increase added to the projected shortfall of **2,647** at end of 2009, gives a total figure of **4,857** affordable homes required over those seven years.

It is projected that the Council will provide **773** affordable dwellings through its own construction programme between 2010 to 2016. When this figure is deducted from the total projected need of **4,857** affordable homes, this leaves a shortfall of **4,084** affordable homes to be provided during the same period, i.e. **583** per annum.

5.3 Social and Affordable Housing Supply

This section sets out the record of delivery of social and affordable housing since the adoption of the 2004 County Development Plan and projected supply over the lifetime of the new Plan.

The position in relation to supply since the adoption of the previous Development Plan is as follows:

	2004	2005	2006	2007	Total
Social Housing					
DLRCC Construction Programme	50	15	32	115	212
Acquisitions	2	Nil	Nil	Nil	2
Voluntary (direct provision)	17	8	17	Nil	42
Policy R7	12	1	Nil	Nil	13
Part V (including voluntary and 12 RAS units)	3	36	5	110	154
Rental Accommodation Scheme (RAS) – purchased properties	Nil	Nil	Nil	10	10
Casual vacancies	126	113	91	64	394
Total social housing provision	210	173	145	299	827
DLRCC Regeneration Programme					
Maple Avenue (formerly Laurel Ave) ⁶	Nil	Nil	Nil	54	54
Rental Accommodation Scheme ⁷					
Landlord agreements	Nil	Nil	2	26	28
Affordable Housing					
Policy R7	3	9	16	Nil	28
Part 5	3	84	68	116	271
DLRCC Construction Programme	Nil	Nil	1	37	38
Total affordable housing provision	6	93	85	153	337

Table 35. Affordable Housing Supply 2004-2007. Source: DLR Housing Department

⁶ Maple Avenue replaces the 61 units which previously existed at Laurel Avenue, Loughlinstown. The last phase of the project will be completed in 2008 and result in an overall net increase of 16 units.

⁷ RAS units have been acquired by the Council under Part 5, purchase in the open market and through agreements with landlords. As the properties acquired under Part 5 and purchased units will be part of the Council's overall housing stock they have been included as part of the social housing provision. As the agreements with landlords have tended to be medium term rentals and the tenants remain on the housing list these have been shown separately.

Projected Social Housing Supply to 2016

	2008	2009	2010	2011	2012	2013	2014	2015	2016	Total
SOCIAL HOUSING										
Construction Programme ⁸	46	211	82	112	112	112	112	112	111	1,010
Acquisitions ⁹	4	0	0	0	0	0	0	0	0	4
Voluntary (direct provision)	17	69	20	20	20	20	20	20	20	226
Policy R7	10	0	0	0	0	0	0	0	0	10

Regeneration ¹¹ Programme	0	0	0	0	0	0	0	0	0	54
RAS Landlord agreements ¹²	0	0	0	0	0	0	0	0	0	0

Table 36. Projected Social Housing Supply. Source: DLR Housing Department

⁸ In the period 2011 to 2016 the Council's Housing Construction Programme indicates a total of 671 social units will be delivered. This amount is shown as being delivered evenly over this period.

⁹ In the current economic climate sufficient funding to enable the Council to purchase social housing units in the open market is unlikely to be available.

¹⁰ In the six year period 2003-2008 the average number of casual vacancies arising in the Council's housing stock has been 114 p.a. Projection 2009-2010 is based on this figure.

¹¹ The Regeneration Programme for the period 2008-2016 has been factored in to the extent of the number of additional units provided and these are included in the Construction Programme.

¹² Housing applicants accommodated under the Rental Accommodation Scheme (landlord agreements) remain on the housing list and therefore are deemed to have a continuing need for social housing. 22 RAS units were provided in 2006, 147 in 2007 and 140 in 2008. It is anticipated that a further 100 units will come on stream in 2009 and 150 units p.a. from 2010 through to 2016.

5.3.1 The Housing Needs of persons with Special requirements

A number of categories of housing applicants require special attention. These include:

5.3.1.1 Travellers

The Housing (Traveller Accommodation) Act 1998 requires housing Authorities in consultation with Travellers and with the general public to prepare and adopt a five year Traveller Accommodation Programme by resolution of the elected members of the Council to meet the existing and projected needs of Travellers in the area.

Traveller Accommodation Need for the five year period 2009 – 2013

Stillorgan Grove	6
University College Dublin	5
West Pier	3
Total	48

Table 38 Draft Traveller Accommodation Programme 2009 - 2013

5.3.1.2 Homeless persons

Under the Council's Scheme of Letting Priorities homeless persons may be awarded overall priority in the allocation of social housing.

The "Counted In" Survey carried out in March 2008 shows the distribution of the homeless population in the Dublin Region:

- Dublin City	1,123	84%
- South Dublin	60	4.5%
- Fingal	19	1.5%
- Dún Laoghaire-Rathdown	138	10%

5.3.1.3 Older people

There are 566 dwellings in the Council's housing stock which are designated for senior citizens' accommodation. Sixteen of these units have been provided since the

commencement of the Housing Strategy 2004 – 2010. The Council's current housing construction programme includes 21 senior citizen units at Broadford Rise, Ballinteer and a net addition of 33 units at Rochestown House, Sallynoggin.

The total number of elderly households accommodated by the Council in all its stock is close to 900.

The 2008 Assessment of Need included 148 elderly households representing 5% of the total assessment. This is an increase of 24 on the 2002 Assessment which was the basis for the Housing Strategy 2004 – 2010. Given the age profile of the county this is likely to increase over the period of this strategy.

The qualifying Age for senior citizen accommodation is 60 years. It is currently proposed that the Scheme of Letting Priorities be amended to bring this down to 55 years.

5.3.1.4 People with disabilities

It is an objective of the Council to provide for the specific housing needs of people with disabilities. The Council provides a small number of specially adapted units in new housing schemes for people with disabilities. In addition it also adapts existing houses to needs of tenants with disabilities subject to resources.

The 2008 Assessment of Need included 54 applicants with disabilities, representing 2% of the total assessment.

The housing projections for the provision of social housing by voluntary housing association is 20 per year. It is envisaged that the majority of these would be for people with special needs.

5.3.1.5 Single persons under 60 years of age

The 2008 Assessment of Need included 1,076 single persons under the age of 60 years. This is the largest category of housing demand. It represents 37% of the total assessment and has grown from 512 (24%) since 2002. It will be extremely difficult to meet a significant proportion of this need from the Council's construction programme and other housing support options will be explored including units coming through Part 5, the voluntary housing sector and the Rental Accommodation Scheme.

5.3.1.6 Residents whose families have left home.

The Council has on occasion purchased private houses from people whose families have left home and whose current accommodation is too large for their needs. It is currently proposed to amend the Council's Scheme of Letting Priorities to provide for a formal "Financial Contribution" Scheme whereby an applicant over the age of 50 years whose current home is in excess of their accommodation needs will be placed on the housing list with overall priority if they agree to dispose of their home to the Council at a discounted price of 20 – 33% depending on the age of the applicant. The aim here is to increase the supply of larger units to the Council, particularly three bedroom units.

The implementation of this scheme will depend on the availability of capital funding. It is not envisaged that it will have a negative impact on the availability of accommodation for senior citizens on the housing list.

5.3.1.7 Women's and Family Refuge

It is an objective of the Plan to facilitate the provision of a women's and family refuge for victims of domestic violence in the County.

5.4 Housing Strategy Policies

5.4.1 Introduction

Despite strong increases in the delivery of social and affordable housing over recent years, the demand for such housing continues to grow. The analysis in the Strategy has demonstrated that a significant affordability problem exists in the County. It is also clear, however, that the combination of the Councils' own construction programme (and other forms of provision) and Part V will only cater for a proportion of the population experiencing affordability problems in the County. This is the dilemma for Dún-Laoghaire Rathdown and highlights the major problems that arise in a County with the highest land values in the Country. The situation may be exacerbated by the recent national economic downturn and consequent pressures on Council finances in relation to any direct provision of social and affordable housing.

The Council must continue to utilise all policy avenues open to deliver social and affordable housing.

This section sets out the policies and objectives of the Housing Strategy.

5.4.2 Adequacy of Lands Zoned for Residential Development

An analysis of the Housing Land Availability Study suggests that there is an adequate supply of zoned residential land to cater for the projected population increase in the County. Timely servicing of zoned land will continue to be a critical issue in ensuring delivery of new residential communities.

The Council shall implement the DoEHLG guidelines on *Quality Housing for Sustainable Communities*, which are to assist in achieving the objectives of *Delivering Homes, Sustaining Communities*, the Government Statement on Housing Policy, which focuses on creating sustainable communities that are socially inclusive.

5.4.3 Lands to be Reserved for Social and Affordable Housing

Table 30 shows that over the period of the strategy an average of 50% of new households will fall within the social and affordable category each year. Taking account of the additional units generated by the estimated pent up demand for social and affordable housing, it will be necessary to provide for social and affordable housing as required under Section 94, Part V of the Planning and Development Acts 2000-2006 for the duration of the Development Plan.

Given that the maximum percentage of land permitted to be reserved for social and affordable housing under Section 94(4)(c) is 20%, the estimate of the amount of (i) housing for persons referred to in Section 9(2) of the Housing Act 1988, and (ii) affordable housing, required in the area of the development plan, is 20% of land zoned for residential use, or for a mixture of residential and other uses. The application of the 20% requirement to particular lands, will be determined by the provisions of the Acts and the requirements of this Strategy.

5.4.4 Housing Mix

There are different requirements for housing mix for both social and affordable housing. A separate target mix will be specified for each of the two types and an overall percentage target mix will be specified.

The previous Housing Strategy 2004 - 2010 indicated the breakdown of social housing units as 25% one bedroom, 50% two bedroom and 25% three bedroom as being the required mix. Since that strategy was drawn up a number of factors have come into play:

- The units which have become available under Part 5 have been predominantly two bedroom units;
- The composition of the housing list has changed largely as a result of immigration and the changing nature of relationships and household formation, which has seen significant growth in demand for one and three bedroom accommodation. The Housing List at the end of October 2008 broke down as follows:

- Older persons	4%
- One bedroom need	41%
- Two bedroom need	25%
- Three + four bedroom need	30%

In relation to older persons and households with a one bedroom need there is a certain amount of flexibility in the supply of accommodation to meet the demand which is facilitated by casual vacancies within the Council's existing stock, the Rental Accommodation Scheme and units becoming available through Part 5.

There is, however, a significant problem in relation to the supply of three bedroom units. Research carried out by the Housing Department in early 2008 into the top end of the housing list i.e. those longest waiting indicated that in certain housing areas households with a two bedroom need will, by the end of 2009, be offered accommodation after less than two years on the list. At the same time there will be a very significant and general undersupply of three bedroom accommodation. In some areas households will have been waiting for in excess of nine years for an offer of three bedroom accommodation. The position is even worse for households with a four bedroom need.

Therefore the housing mix required in relation to the provision of **social** units for the period 2008 – 2016 will be:

- | | |
|--------------------------|-----|
| - One bedroom | 25% |
| - Two bedroom | 25% |
| - Three and four bedroom | 50% |

In the case of **affordable** housing being provided by agreement under Part V of the Planning and Development Acts, the breakdown of housing type required is 15% one bedroom, 75% two bedroom and 10% three plus bedrooms throughout the County. This breakdown of unit size reflects the composition of the Affordable Housing List.

When averaged with the social mix of 25%/25%/50%, the overall Part V 20% social/affordable mix is;

- | | |
|--------------------------|-----|
| - One bedroom | 20% |
| - Two bedroom | 50% |
| - Three and four bedroom | 30% |

The requirements with regard to housing mix may change over the period to 2016. The Council may amend housing policy to reflect any such changes in social and affordable housing needs.

5.4.5 Housing Type

While the Council requires that developers provide for a housing mix as outlined above, it is also essential that there is a range of house types provided within developments including any combination of the following: detached, semi-detached, terraced, single storey, duplex, apartments.

In the preparation of planning applications for residential developments, applicants should demonstrate as appropriate how the proposed development complies with the following DoEHLG guidelines:

- Quality Housing for Sustainable Communities
- Sustainable Urban Housing, Design Standards for Apartments
- Residential Density Guidelines
- Urban Design Manual Best Practice Guidelines

In evaluating such proposals, the Planning Authority will have regard to the degree to which the development is in compliance with these guidelines.

5.4.6 Provision for Special Needs

The Council will encourage proposals from developers to satisfy Part V obligations, which are directed toward special need categories – namely, elderly accommodation, travellers accommodation, specialised accommodation for the homeless and specially adapted accommodation for persons with disabilities – where the proposal is related to a local need and is consistent with other policies of the Development Plan.

5.4.7 Implementation of the Housing strategy

In order to address the current imbalance between housing demand and housing supply, the following shall be required by agreement under Part V of the Planning and Development Act 2000, as amended by Part II of the Planning and Development (Amendment) Act, 2002.

A twenty percent social and affordable housing requirement will be applied in relation to all sites that are residentially zoned or proposals where a mixed-use development including residential is proposed on any zoning in the County, unless otherwise stated in the Strategy, or exempted from the provisions of Part V in accordance with the above Acts.

An agreement under Part II of the Planning and Development (Amendment) Act 2002, may provide for:

1. The transfer to the Planning Authority of the ownership of part of the lands which is subject to the application.
2. The building or transfer of houses on the land which is subject to the application for permission.
3. The transfer of such numbers of fully or partially serviced sites on the land which are subject to the application for permission to the ownership of the Planning Authority.
4. The transfer to the Planning Authority of the ownership of any such other land within the functional area of the Planning Authority.
5. The building and transfer on completion of houses on the land within the functional area of the Planning Authority.
6. The transfer of fully or partially serviced sites on land within the functional area of the Planning Authority.

7. A payment of an amount specified in the agreement to the Planning Authority.
8. A combination of a transfer of land which is the subject of the application (1) and the doing of one or more of the things specified in the preceding paragraphs (2 – 7).
9. A combination of two or more of the things referred to in paragraphs (1 – 7).

In deciding the type of agreement to be entered into, the Planning Authority shall consider the following in accordance with Part II, Section 3(c) of the Planning and Development (Amendment) Act 2002:

- Whether such an agreement will contribute effectively and efficiently to the achievement of the objectives of the Housing Strategy.
- Whether such an agreement will constitute the best use of resources available to the Planning Authority to ensure an adequate supply of social/affordable housing and any financial implications of the agreement for its functions as a Housing Authority.
- The need to counteract undue segregation in housing between persons of different social background in the area of the Authority.
- Whether such an agreement is in accordance with the provisions of the Development Plan.
- The time within which housing referred to in section 94(4)(a) is likely to be provided as a consequence of the agreement.

Consideration will also be given to housing market conditions prevailing at the time of entering into any such agreement.

5.4.8 Circumstances where a reduced social-affordable element may be acceptable:

Elderly accommodation

In instances where it is proposed that the site or a portion of a site be developed for elderly persons sheltered accommodation, the portion of the site to be used for elderly accommodation shall be required to provide a reduced percentage of social or affordable housing. This is to encourage the development of these types of residential units. It may result in 'empty nesters' having the choice that will enable them to vacate larger units for units more appropriate in size to accommodate their current needs. To accord with the objective of promoting mobility and creating social mix within areas, the maximum site size relating solely to proposed elderly persons accommodation will be limited to one hectare.

Student Accommodation

It is recognised that there is a need to provide student accommodation for students studying both within and outside the County. The Council will support the provision of on-campus student accommodation and also may permit student accommodation off campus where the proposed development:

- Is located within one pedestrian kilometre from a third level institution or of a quality public transport route.
- Provides adequate car parking.
- Complies with the Department of Education and Science Guidelines on Residential Development for Third Level Students.

No social/affordable housing will be required in instances where it is proposed that student accommodation is to be provided on the campus of a third level institution. In all other instances of student accommodation the standard 20% social/affordable housing requirement will apply.

5.4.9 The Role of the Voluntary and Co-operative Housing Sector

During the period 2004 – 2008 a total of 59 social housing units were provided directly by the voluntary and co-operative sector with funding under the Capital Assistance and Capital Loan & Subsidy Schemes. It is anticipated that 226 social housing units will be provided directly by the sector over the period 2009 – 2016, subject to the availability of resources.

A further 282 social housing units were provided to the voluntary and co-operative sector during the period 2004 – 2008 through Part V agreements between private developers and Dún Laoghaire-Rathdown County Council. The Council will continue to support the provision of social housing to the sector through Part V agreements in the future, subject to the availability of funding through the Capital Assistance and Capital Loan & Subsidy Schemes.

5.4.10 Social and Affordable Policy

Subject to paragraph 5.4 above, as a general policy, 20% of the land zoned for residential use, or for a mixture of residential and other uses, shall be reserved for the provision of housing for the purposes of both

- (i) persons referred to in Section 9(2) of the Housing Act 1988, and
- (ii) affordable housing (as defined in Section 93 of the Planning and Development Acts 2000-2006).

APPENDIX C

SCHEDULE 1

RECORD OF PROTECTED STRUCTURES

Record of Protected Structures

Buildings, structures and sites are listed in alphabetical order by road or street name for each of the 14 Maps.

In general, the description for the list refers to the original use of the structures(s). The current use is normally indicated where considered relevant to the listing.

The Protected Structures are indicated in solid orange on the maps. This however is not intended to define the precise extent of the listed items. Where house names may have changed recently, the former name may be provided in the list.

In any case where boundary walls, gates or other such features or any building or structure are listed but not mapped, they shall be deemed to be listed. Likewise, in any case where a building or structure is mapped but not listed, it shall be deemed to be listed.

Note:

In relation to a Protected Structure or proposed Protected Structure, the meaning of the term structure includes the interior of structure, the land lying within the curtilage of the structure, any other structures lying within that curtilage and their interior, all fixtures and features which form part of the interior or exterior of that structure. The protection also extends to any features specified as being in the attendant grounds.

It should be noted that a number of Protected Structures are included in Appendix C, Schedule 2: Record of Monuments & Places. These structures are protected under the provisions of the National Monuments Acts and the Planning Acts. The qualities of archaeological and architectural interest are not mutually exclusive and certain structures can have both qualities and be protected by both Acts.

STRUCTURE NAME	LOCATION	DESCRIPTION	MAP No.	RPS No.
Airfield House	Airfield Trust, Kilmacud Road Upper, Dublin 14.	House (Note: Original Entrance Piers, Railings and gates also Protected Structures)	1	1204
