VOICE

“It has been one of the most meaningful messages I have helped to communicate in my teaching career.”

Philip O'Brien, Teacher, Scoil An Athar Tadgh

How Picker Pals Works

1. Classrooms receive a special delivery of the Picker Pals programme complete with books, songs and activities and the unique Picker Pack, containing adult and child litter-picking equipment.
2. Each week a child brings home the Picker Pack and leads their family on a litter-picking adventure in their local community.
3. Children take pride in their action through sharing their story with their teacher and classmates.
4. Picker Pals continually motivates the children throughout the school year with quizzes, competitions and Picker Pals TV episodes.

“The pupils were incredibly enthusiastic to be given the opportunity to take the pack home. Many of them elected it as a key highlight of their year.”
